in the development and evaluation of the curriculum; (e) comparing the curriculum of similar programmes offered elsewhere at international level; (f) carrying out demand and supply analysis of degrees provided at IIPS; (g) encouraging a pedagogy with more student engagement and learning by practice; (h) analyzing the new skill requirements for the courses and competitors for IIPS courses; and (i) developing communication and presentation skills among students.

VACs are the courses of 30-hour duration (60% theory and 40% practical or 50% each of theory and practical) which are optional and offered outside the curriculum that add value and help students in getting placement. After deliberating the UGC/NAAC requirements for VACs and its benefits, the members of the IQAC recommended as follows: (a) IIPS should introduce the VACs from the next academic year in its master's programmes; (b) syllabus and guidelines for the VACs may be developed and placed before the Board of Studies and Academic Council for their consideration and approval; (c) the VACs should supplement the student's skills in the areas (which are closer to the field of demography, public health, bio-statistics, etc.) such as data analytics, data visualization, visual analytics, monitoring and evaluation, etc; and (d) VACs may be conducted beyond the regular class hours in the evening/weekends.

The meeting ended with a vote of thanks to the Chair.
