## Time Begin

FOLLOW-UP: In order to determine who remains in the household from the last time the survey team was here, and any new household members since then, I need to know who lives as this address. I have a record of household members from the last interview, and I will start with these people.

NEW: In order to determine who to interview, I need to know who lives at this address.

ALL: Let me assure you that any information you provide is strictly confidential. By asking "who lives at this household?", I mean those who share meals ('eat out of the same pot') and usually stay here for at least six months a year.

I would like to know the age, sex, marital status, educational level and relationship to the household head of each of the members of this household who live here.

In the last part of this section, I will ask about the total income for the household in the last 12 months (previous to today) from paid work or other sources. I would like to know about all sources of income. I know it may be difficult to calculate that figure, but please do try to give as accurate an amount as possible. Remember that all information will be kept strictly confidential. This information is important to assess overall health and well-being of people in your household compared to other similar households.

## Section 0800: Household Expenditure

## Time Begin

I would like to ask you some questions about how much your household and all its members spends on food, household items, health services and other things. Expenditures can be monetary or in-kind. The value of in-kind payments and items produced or raised, and consumed, by the household need to be estimated and included. We ask about different time periods, so please listen carefully to the time frame.

For all questions in this section report all values in local currency, whether paid in cash or in kind.
I would like to start by asking about household expenses over the last 30 days. The next questions are about food and non-food items purchased by the household.

I would like to ask you more specific questions about how much your household and all its members spent in cash or in-kind on all health care and services that did not require an overnight stay. Again, we want expenses in the last 30 days. If payment was in-kind, please estimate a monetary value. Please exclude costs to be reimbursed by insurance.

In the last 30 days, how much did your household spend on:

| Q0804 | Registration and consultation fees by doctors, nurses, or trained midwives that did not require an overnight stay? |  |  |
| :---: | :---: | :---: | :---: |
| Q0805 | Health care by traditional or alternative healers (Chinese traditional medical doctor)? | $\square$ $\square$ $\square$ -8 DON'T KNOW |  |
| Q0806 | Diagnostic and laboratory tests such as X-rays or blood tests? |  |  |

I know these questions may be difficult to answer - try to give us the best estimate of expenses. Now I want you to focus on household expenses over the last 12 months. These are expenses that may be more periodic or "big purchases". I would like to ask how much money was spent by all household members for the following items in the last 12 months.

```
Q0821
All other goods and services (property, land, livestock, cleaning services, repair services...)?
```

*Mandatory health insurance refers to social medical, unemployment, or endowment insurance
**Voluntary health insurance refers to cooperative medical care, commercial or social insurance
INTERVIEWER: If no health expenditures, (Q0804 to Q0810 = "0" and Q0818 to Q0820 = "0") $\rightarrow$ SKIP TO Q0829

Finally, I want you to think of how you paid for your health care expenditures over the last 12 months. This includes costs for all fees, services and goods, including overnight stays.

In the last 12 months, which of the following financial sources did your household use to pay for any and all health expenditures?

| Q0822 | Current income of any household members (salaries, pensions, paid benefits...)? | 1 2 8 | YES <br> NO <br> DON'T KNOW |
| :---: | :---: | :---: | :---: |

| Q0828 | Other, specify: | 1 2 8 | YES <br> NO DON'T KNOW |

Last, we want you to think of a typical month and the expenditures for your household. We want to know an average total amount your household spends on all items. This includes the total amount your household and all its members spent on everything, for example, clothing, transport, rent and rates, school fees, food, drink, entertainment, health care and all other expenses.

| Q0829 | In general, what is your household's average overall <br> monthly spending? | $\square \square \square \square \square \square \square \square \square \square$ |

## Time End INTERVIEWER: Complete interviewer observations.
