

Prof. Sanjay Kumar Mohanty Receives Careers360 Faculty Research Award in Social Sciences

Prof. **Sanjay Kumar Mohanty**, Director and Senior Professor at the **International Institute for Population Sciences (IIPS)**, **Mumbai**, has been honoured with the **Careers360 Third Faculty Research Award 2026 in the Social Sciences**.

The award was conferred during the **third edition of the Careers360 Faculty Research Awards**, held on **1 October 2026 in New Delhi** as part of the **India Research & Impact Summit (IRIS) 2026 at The Imperial Hotel, New Delhi**. The prestigious event brought together distinguished researchers, academicians and leaders from India's higher-education and research community.

Prof. Mohanty was recognised among **54 researchers representing 27 academic disciplines**, with his contribution being acknowledged in the **Social Sciences** domain. The Careers360 Faculty Research Awards recognise researchers on the basis of their scholarly contributions, including research publications, citations and h-index, with the assessment covering the period **2015–2025**.

The recognition reflects Prof. Mohanty's sustained contribution to research in **population studies, public health, poverty, inequality and development**. Through his extensive research and publications in national and international peer-reviewed journals, he has contributed significantly to evidence-based understanding of population and health challenges in India.

The award is a notable recognition of Prof. Mohanty's academic and research contributions and further highlights the important role of **IIPS in advancing research and scholarship in the social sciences and population sciences**.
